

## **Time to apply for Luleå municipality's schools for the autumn 2019**

As a guardian, you are able to state a preference on which school your child will attend as part of the free school choice. All children are entitled to a place at a school close to their home, although no one is guaranteed a place in the closest school. You can apply for municipal compulsory schools using our e-service. You can also use the e-service to apply for a place at Montessori Luleå. If you want your child to attend an independent school in Luleå municipality, you must personally contact the school.

### **Who should make a choice**

- Guardians of children starting preschool class and who want their child to attend another school than the one assigned to them.
- Guardians of children who are attending a school where the next year that they are starting is not on offer (years 4 and 7) and who want their child to attend another school than the one assigned to them.

**You do not need to make a choice if you want your child to attend their assigned school.** If we do not receive an application, your child will be assigned to a school based on their registered address

You can learn more about choosing schools at [www.lulea.se/valjaskola](http://www.lulea.se/valjaskola)

### **Application**

Application period 15 January to 15 February

Apply with electronic ID in our e-service

[www.lulea.se/valjaskola](http://www.lulea.se/valjaskola)

Guardians without electronic ID or guardians with a protected identity can contact our customer centre to make an application.

### **Do you have questions about choosing schools?**
